Oxygen Sensors for Medical Products

PST offer FDA approved medical electrochemical oxygen sensors for all major brands and models of medical respirators, ventilators and medical breathing gases. The range of medical replacement sensors are FDA approved for use in respiratory therapy, advanced life support systems in intensive care and emergency medicine as well as in outpatient care and surgical respirators for protection of medical staff.

Vandagraph	R-17VAN	PSR-11-39-JD
Vandagraph VN202		PSR-11-39-JD

These diving sensors are engineered specifically for use underwater at depth. Every oxygen sensor is subjected to stringent quality assurance program that checks the output stability of each several times during the manufacturing process. As a result, every rebreather sensor is qualified and its hyperoxic linearity documented prior to shipment.

Replacement Oxygen Sensors for Industrial Products

Aii offer replacement electrochemical oxygen sensors for all major brands and models of fixed and portable oxygen analyzers in the demanding industrial environments. We have a sensor cross reference table below to aid sensor selection.
